Your Touchstone Energy® Cooperative 

"We are committed to provide safe, reliable and efficient resources to enhance the lives of our members"

AERIAL INSPECTIONS IN YOUR AREA

Inspections of the overhead transmission lines in your area are being conducted March 16 – 20, 2026 using Firmatek, our unmanned aircraft system (UAS) contractor. These inspections help us identify line sections that need maintenance or upgrades.

Utilizing the latest UAS technology helps us lower costs, improve reliability, and inspect overhead lines without accessing your property. We are committed to protecting your privacy; therefore, our UAS will image only our equipment, and any images taken will not be shared outside the organization.

Fimratek UAS is registered with the Federal Aviation Administration and, upon use of the aircraft, will adhere to all aviation laws and the best practices recommended by the National Telecommunications and Information Administration.

You are a valued member, and we appreciate having the opportunity to provide your electric service. If you have any questions, please contact our main office at 928-485-2451 or the Operations Manager, Rusty Sherman (see contact information below).

Sincerely,

Rusty Sherman
